### IFES Workshop Delivers Lobbying Skills to PNG at Critical Juncture

PHOTO CAPTION: PNG women participants put on traditional finery to greet U.S. Ambassador Teddy Taylor. Some 40 women from the local, provincial and national level took part in a K1.5 million U.S. government-funded project to teach them lobbying skills. According to Ambassador Taylor, the workshop “could not have come at a better time.” Ambassador Taylor, who is a dedicated and enthusiastic advocate for empowering women and girls, underscored that U.S. government support represents a delivery on promises made by U.S. Secretary of State Hillary Rodham Clinton during her visit to Port Moresby November 3, 2010. .
